Shared (digital) challenges

... too much **emphasis on** the use of **technology** in the classroom while overlooking the **focus on learning goals** ...

... the **gap** between teachers and students...

Solution

Digital pedagogy ...

„meaningful use of technology for creating **pedagogical conditions** for **teaching** and **learning**“

Key point ...

"teachers **create their own** digital pedagogy through their **professionalism, teaching skills, and willingness**"

Approach

... co-design ... implementation ... reflection
